We are grateful for the outpouring of support from the local community and wish to thank everyone for their kindness.

Out of the 43 cases reported yesterday on the Big Island, we can confirm that 16 of them are from UofNK in West Hawaii. We are happy to report that our frontline workers, who initially contracted the virus while serving the community, are all doing well in quarantine and only minor symptoms are reported. We continue to monitor the situation carefully in cooperation with the Department of Health.
